Subject: Request for sponsorship for “New Cycles” Project

Dear,

Attachment 1. Project Summary

2. Project Schedule

I, Pasapas Uahwatanasakul, am the founder of the “New Cycles” Project, which aims to nurture a caring-and-sharing society, especially in the underprivileged slum communities in Bangkok. Having noticed the several problems facing people in these communities, ranging from health problems as a result of pollution, poverty, to people’s morale, I have a steadfast determination to do my part in helping to improve the communities. It is with this goal that I have initiated the New Cycles Project. I thus would like to seek your kind support for the said project from 10 August – mid-December 2017 at the Bueng Rama 9 Community, Bangkok, with an objective of meeting the needs and realising the full potential of the youth in the community to earn decent income and escape the poverty cycle. It will also help improve the personality of the participants, encouraging them to take up challenges, exercise self-discipline, learn about sufficiency and frugality and develop teamworking skills. The estimated number of participants and volunteers is 25-20 persons.

I, therefore, wish to seek your kind sponsorship to make the said event possible, in an amount of 10,000 baht or in kind, e.g. souvenirs for participants. As a sponsoring organisation, the company’s logo will be featured at the event and in other related print advertisements.

I look forward to your kind consideration and hope to hear your positive response. Thank you very much.

Yours sincerely,

(.....)

Pasapas Uahwatanasakul
